

PEER REVIEW PLAN

Title:

IRIS Toxicological Review and Summary Documents for Chloroform (Peer Review Plan)

Purpose/Objective:

EPA is undertaking a new health assessment for chloroform for the Intergrated Risk Information System(IRIS). The outcome of this project will be a Toxicological Review and IRIS Summary of chloroform that will be entered on the IRIS database. IRIS is an EPA database containing Agency scientific positions on potential adverse human health effects that may result from chronic (or lifetime) exposure to chemicals in the enviroment. IRIS contains chemcial-specific summaries of qualitative and quantitative health information to evaluate potential public health risks associated with exposure assessment information to evaluate potential public health risks associated with environmental contaminants. The IRIS database is relied on for the development of risk assessments, site-specific environmental decisions, and rule making.
